These days, you have lots of options to choose from for outdoor furniture. What’s not always easy is finding something that not only looks good and is comfortable, but is built to last.

D&E Equipment Sales, Inc. is proud to introduce our newest customized product, Customized Park Benches. The D&E name has been synonymous with quality metal fabrication for over 25 years. Now, we’re bringing our time tested experience in building quality machinery to exacting specifications to the outdoor furniture market.

Proudly made at our facilities here in the USA, these benches are not only beautiful, they truly are built to last. Made of 3/16” high grade industrial carbon steel, our laser cut parts have a consistent fit every time. We customize your bench with the color and design of your choice in powder coat (electrostatically applied and baked at over 390 degrees Fahrenheit) instead of paint because of its durability, easy cleaning and long lasting finish. This means your custom bench will continue to look as good as the day it arrives year after year.
